### ***REASONS FOR ALLOWANCE***

1. The following is an examiner's statement of reasons for allowance:

The cited art of record fails to teach a spark plug for an internal combustion engine comprising a middle electrode having an electrode base body, and a precious metal platelet is attached to an end face of the electrode base body wherein an end section and the previous metal platelet are formed in the shape of truncated cones as defined in claims 1 and 12, or a method for producing electrodes for a spark plug having a precious metal platelet and an electrode base body wherein the outer section differs in a micro-structure from one of an inner section of a transition region wherein in the transition, the outer section between the platelet and an electrode base body is removed as defined in claim 8. Therefore, claims 1-12 are presently allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
